

Testimonials from KIM GEORGE

COULOIR JACKET RRP £425

Intuitively you just know when something is right, be it the choice of a great line or the first time you put on the Couloir. Simply put, it is the best ski jacket I have ever used!

The Couloir is a professional, highly technical ski jacket constructed from bombproof 3-layer **GORE-TEX® stretchy soft shell fabric**.

Ingenious selective use of fleece and flannel backed stretchy **GORE-TEX® fabric** keeps the core warm but allows for remarkable freedom of movement assisted by the addition of articulated cut sleeves. This also gives the jacket an extraordinary temperature range, from shaded north bowls to spring slush.

The cut is spot on, generous enough to allow for a range of layers, with a practical length but all sufficiently close to avoid unnecessary flapping.

Simple Haglöfs' styling has incorporated laminated waterproof zips into the appearance of the Couloir, protecting the two ample torso, single Napoleon and upper sleeve pockets.

Pocket placement allows access when wearing a rucksack and can be operated with a gloved hand. Pit zips provide the added ventilation.

The 3-way adjustable hood complete with fleece-lined collar is

Kim George is one of Haglöfs UK Friends, a team of highly qualified mountain guides/instructors and elite athletes who are ambassadors for the brand and provide valuable feedback for future product development. Based in La Thuile, Italy, Kim provides a unique approach to ski coaching with tailor-made bespoke courses in the elegant art of Telemark skiing, as well as all forms of Alpine ski instruction. www.ski4real.com

a sanctuary of snugness when exposed to long cold chairs, and the 2-way laminated front zipper backed by wind flap and luxurious chin guard, help hide the grin from your fellow passengers!

Haglöfs have hit the mark with the cuff cut and functional velcro adjustment - being able to fit your sleeve over a gloved hand without removing the other glove! The Couloir's great style presence is its function and performance... You just know when it's right.

COULOIR PANT RRP £325

The Couloir full spec winter ski pants with integrated snow skirt are the perfect compliment to the Couloir jacket.

The Couloir pant has everything that is needed but nothing that is not - a tribute to Haglöfs design principle.

GORE-TEX® stretchy soft shell fabric takes the hammer from off-piste demands, but still has style for a cruising red piste.

Articulated knees allow unrestricted movement even dropping into a deep telemark.

Knees, thighs and seat have fleece backing optimising heat retention on an alpine morning, whilst laminated zippers allow thigh ventilation for later in the day.

Having a higher waist the pant has a snug feel on even the very coldest of days, the detachable braces allow for convenience stops.

The integral snow cuff allows a tight cinch around the boot; a one-handed operation that keeps out even the deepest powder. On the outside Schoeller Kepronex insteps reduce inner edge slashes.

Working long alpine days, it is the one ski pants I constantly take off the hanger.
